# INVITE YOU TO OUR IN-DEPTH JOURNEYS OF DISCOVERY

OUR UNIQUE APPROACH IS A RADICAL DEPARTURE FROM ANY CONVENTIONAL TOUR OF OBVIOUS AND COMMERCIALISED RESORTS

THERE ARE NO HIDDEN EXTRAS TO PAY FOR WHILST ON TOUR. WE RESPECT PEACEFUL ENJOYMENT. WE DON'T TALK ON THE MICROPHONE ALL THE TIME!!

Brazil coast is graced by hundreds of beautiful islands

Chile's Patagonia

South America is more than twice the size of Australia. Rather than cramming too many highlights in the shortest possible time, we offer quality tours featuring 4 nights in every place. Our programs include a daily schedule of free optional excursions to choose from and you set your own pace.

These tours have been designed to offer the maximum flexibility and personal freedom to the participants, without any constraint. We simply provide options, guided orientations, free maps and information to cater for all kind of individual requirements. The number of participants is limited to 14.

Our tours provide a high standard of comfort with modern air conditioned coaches and are far less demanding than most European tours.

Chile's stunning beauty and exceptional length (4,300km) provide dramatic contrasts: the Andes with snowy peaks up to 7,000m, deserts, rainforests, hundreds of lakes, fjords and glaciers.

Brazil features a splendid coastline, dotted with beautiful islands, historic colonial towns as well as mountain resorts.

Argentina's main feature is the contrast between the huge eastern plains and the high mountain range of the Andes to the west. Climate ranges from mild to cold in Patagonia.

### QUALITY, AWAY FROM MASS TOURISM

Our South American Tours represent a fresh new approach to the discovery of these spectacular and very diversified countries.

In a world where overpopulation is gradually spoiling most beautiful places, triggering massive waves of concrete developments, cars and pollution.....mass tourism can be the final straw to make any holiday unbearable.

Mass media vested interests only promote destinations which are heavily advertised (and paid for). So that more and more people are induced to go to the same places. They feel almost "compelled" by mass media manipulation.

We break away from this pattern. Our tours are a kaleidoscope of colourful surprises, picturesque highlights off the beaten track and sharp contrasts.

We deliver a fine balance of beautiful scenery, historical heritage and local culture in a framework of a comprehensive, yet unhurried holiday.

We maximise your personal freedom by providing excellent hotel locations, optional guided orientations and plenty of local maps to allow for independent sightseeing.

Our special gastronomic dinners provide a wide range of regional dishes in the traditional setting of picturesque and sometimes old fashioned restaurants.

### NATURALLY EXTREME

Chile's length, when compared with Europe, exceeds the distance from Norway's northern tip to the Sahara desert.

With a total area of 742,000 sq km (three times the size of the United Kingdom) it has a population of only 18 million people and encompasses amazing extremes:

- a) In the north, the world's driest desert, the Atacama.
- b) In the centre, a mediterranean coast, lakes and rain forests.
- c) In the south, fjords and glaciers.

Yet, you can drive across the entire width of the country in a mere three hours, climbing from sea level to elevations higher than any peak in Europe or North America.

Here it's possible to ski on the slopes of active volcanoes, sail amongst icebergs, venture into lunar outposts, or raft down wild rivers.

Patagonia in the south, is a land of untamed beauty, with plenty of natural wonders. It boasts an impressive 400 km long ice-field, known as the Southern Ice Cap.

#### SOME HIGHLIGHTS

Lake Miscanti – Located at 4,100m in the Northern Andes, at the edge of the Atacama desert, this small lake is set amongst a complex system of volcanoes, mostly around 6,000m high (see photo in the brochure).

Atacama Desert – It's a very unusual desert because it features plenty of spectacular gorges and it is flanked by the Andes with snowy volcanoes 6,000m high as well as high altitude lakes. Yet it's the world's driest.

**River Cruise** – Navigation by exclusive boat from Valdivia to the strategic Isle of Mancera, facing the ocean, at the mouth of the river. Disembarkation and visit to historic XVII century Spanish Fortress.

Disembarkation at the historic town of Niebla, on the banks of the river, opposite to Mancera Island.

Puerto Varas – The beautiful green countryside of Middle Chile graces this tranquil town set on the banks of Lake Llanquihue. The majestic snow capped volcano Osorno is mirrored in its waters.

Torres Del Paine – It's the most famous spectacular National Park in Chile. Its wilderness is unparalleled and features amazing untamed landscapes as well as a unique fauna: most prominent are the guanacos (similar to lamas), easy to see and approach.

Patagonia-Tierra del Fuego cruise – Expedition in the deep south of the country. It boasts an incredible scenic variety: emerald green rivers, a maze of fjords and giant glaciers, high rising snowy peaks, dense forests, waterfalls and abundant wildlife.
